Professional Summary

Results-driven Python Full Stack Engineer and Computer Science Engineering student with 3 internships building scalable software across artificial intelligence / machine learning (AI/ML), cybersecurity, and full-stack web development. Proficient in Python, Django, Flask, REST APIs, React.js, and MySQL. Built 5+ production-level projects; skilled at reducing load times, improving model accuracy, and shipping features on time in Agile/Scrum environments. Seeking full-time Software Engineer, Full Stack Developer, or AI/ML Engineer roles.

Technical Skills

Languages	Python, JavaScript (ES6+), Java, C
Backend	Django, Flask, FastAPI, REST APIs, GraphQL, Node.js
Frontend	React.js, HTML5, CSS3, Bootstrap, Responsive Design
AI / ML	scikit-learn, TensorFlow, Pandas, NumPy, Natural Language Processing (NLP), Feature Engineering
Database & Tools	MySQL, PostgreSQL, MongoDB, Git, GitHub, Docker, VS Code, Agile/Scrum
Security	AWS, Cybersecurity, Post-Quantum Cryptography (PQC)
Concepts	Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), System Design, Continuous Integration/Continuous Deployment (CI/CD)

Professional Experience

Software Development Intern (Full Stack) Autointelli, Chennai	Dec 2025
- Engineered 4+ responsive UI components for an enterprise IT automation platform using HTML5, CSS3, and JavaScript, integrated with Python-based REST APIs. - Collaborated with cross-functional Agile teams to eliminate 40% of UI bugs within 3 weeks, ensuring on-time delivery across 2 sprint releases.	
Web Development Intern CKM Buildbase, Chennai	Jun 2024
- Architected 3 responsive full-stack web applications with cross-browser compatibility across 4 browsers; optimized asset pipelines to boost page load speed by approximately 30%. - Implemented front-end enhancements that reduced user-reported layout issues by 50% across desktop and mobile viewports, improving overall user experience.	
Python Developer Intern Edunet Foundation	Feb 2024 - Mar 2024
- Developed a Python-based fitness tracker leveraging machine learning (ML) classification algorithms, achieving 91% activity recognition accuracy on a 5,000-sample dataset. - Executed a full machine learning pipeline (preprocessing, feature engineering, training, and evaluation), reducing data noise by 35% and improving model reliability.	

Projects

Quantum Computing Based Security System Python, Django, TensorFlow, scikit-learn, MySQL
- Designed a cryptographic model integrating Post-Quantum Cryptography with NLP-based phishing detection, achieving 93% threat classification accuracy. - Deployed a real-time anomaly monitoring pipeline with REST API endpoints, delivering alerts within a 2-second latency threshold.
Dashboard Management System Python, React.js, JavaScript, HTML5, CSS3, PostgreSQL
Built a full-stack real-time dashboard with a Python backend and React.js frontend, visualizing 10+ live system metrics and reducing manual monitoring effort by 60%.
AI Honeypot Security System Python, Flask, Machine Learning, Docker
Developed an AI-powered honeypot system with a Flask REST API backend, detecting 3 distinct attacker behaviour patterns with real-time alerts at 95%+ accuracy.

Education

Sri Sairam Institute of Technology, Chennai | *B.E. Computer Science Engineering, CGPA: 8.91/10* | 2023 - 2027
Sri Sitharam Vidhyalaya Matriculation Higher Secondary School | *12th / Higher Secondary, 88/100* | 2021 - 2022

Certifications

• AWS Certified Cloud Practitioner	• Deloitte – Data Analytics and Cyber Technology
• JP Morgan – Software Engineering & Quantitative Analysis	• Cisco – CCNA Modules (1-3), Intro to Data Science

Achievements & Activities

- Organized college technical symposium with 100+ participants across 8+ events; won awards at 2+ inter-college symposiums, demonstrating leadership and communication skills.
- Presented and published a research paper at an international-level technical conference (ICDAM) at London Metropolitan University.
- Actively participates in competitive coding and industry workshops.
